# Enrollment now open for Massachusetts Home Energy Assistance Program

Eligible households can now apply for financial assistance for the 2024-2025 heating season

**BOSTON** – The Massachusetts Executive Office of Housing and Livable Communities today announced that the Home Energy Assistance Program (HEAP) enrollment period for the 2024-2025 winter heating season will open on October 1. This critical program provides financial relief to eligible households to help them pay their winter heating bills, ensuring they can keep their homes safe and warm during the colder months.

HEAP is a free, statewide resource that assists eligible renters and homeowners by paying a portion of their winter heating bills directly to their heating companies. Starting Oct.1, homeowners and renters can apply online or through local administering agencies across the state. The assistance period runs from Nov. 1, 2024, to April 30, 2025. HEAP offers grants that do not need to be repaid; however, households must meet specific eligibility requirements to qualify.

"No resident should have to worry about heating their home during the winter," said Secretary of Housing and Livable Communities Ed Augustus. "With high costs continuing to strain household finances, the Home Energy Assistance Program is more critical than ever. We urge anyone in need of heating assistance to explore their eligibility by applying online or visiting the nearest administering agency. Please share this valuable information with loved ones or neighbors who could benefit from this support during the colder months."

Eligibility is determined by several factors, including household size and the combined gross annual income of residents 18 and older. Qualifying households, including those with the cost of heat included in the rent, can receive assistance for all heating sources, including oil, electricity, natural gas, propane, kerosene, wood and coal. Households do not need to be on public assistance or have unpaid heating bills to qualify.

## ELECTION | from page 1

American people," Gary Montano said. "We therefore call upon our representatives to provide relief to the people and assurance of domestic tranquility by joining us in demanding a valid 2024 general election."

Based on their research, the group has requested that voters need more concrete proof of citizenship, identity and eligibility when registering to vote and that voter rolls should be accurate and available for public review and challenge 30 days before the start of early voting.

The group encouraged people who would like to learn more about their research to go to their website at <https://unite4freedom.com/>.

Corinne Wingard spoke out as well, and said she had reached out to the secretary of state's office about the groups' report following their appearance at the West Springfield City Council.

According to Wingard, the office re-

sponded claiming that the group's statements were false.

"They totally debunked what was said here," Wingard said.

She also mentioned that the city council was not the proper body to bring this issue to, as they are not in charge of voting.

"This is simply disinformation trying to make people lose faith in our electoral system," Wingard said. "I suggest anyone with any questions about this directly contact the office of the secretary of state."

A conversation with the secretary of state's office confirmed that this group does not have access to the official state voter records and that they do not have proper understanding of election laws.

The state office also confirmed that there were no more votes than voters in the election.

The office encouraged people to check the department's official election website to find voting details for themselves.
