by their work earnings. In any case, the earnings test, in its mitigated form, still persists today. FYI, H.R. 5193 – The Senior Citizens Freedom to Work Act was recently introduced in Congress proposing to repeal the SS earnings test, but has not advanced in the legislative process since introduced in August 2023.

In any case, under current rules, if you continue working after your FRA, the earnings test will not apply to you. And, if you lose any benefits before your FRA due to the earnings test, when you reach your FRA you'll get time credit for any months that benefits were withheld, resulting in a somewhat higher monthly payment after your full retirement age.

One final point: if you continue to work after starting your Social Security benefits and your recent earnings are higher than any of those in the inflation-adjusted 35 years used to originally calculate your benefit, your entitlement will be recalculated to give you credit for those higher recent earnings.
